ROADMAP: ENQUIRERS AND NAVIGATORS

Winchelsea School

Enquirers Pathway: Preparing our pupils to access and engage in the world around them and be successful in life beyond school

PARENT QUOTE

“I wasn't sure what to expect but it was great to speak to Jess (Salt), she knew my child having observed him several times and could talk to me about the plans for SALT input with him in the New Year. She brought tons of leaflets with her and we discussed the approaches that my son would likely benefit from bearing in mind his needs. Was like having a mini parents evening.”

ENQUIRERS

Subject specific learning. Through our thematic curriculum, pupils develop skills across a broad range of subjects; phonics, reading, foundation motor skills and key concepts in Math. PSHE enables pupils to develop life and social skills.

NAVIGATORS

Pupils will have greater challenge in subject specific learning to meet their learning abilities. Learning will be contextualised and prepare pupils to access examinations. This will support their next steps into higher education.

STEP:1 / EARLY ENQUIRERS

There is a focus on communication, social skills, physical development and regulation. Pupils begin their subject specific learning through practical application.

STEP:2 / ENQUIRERS

Subject specific learning that builds communication, social skills and math concepts. It supports learners to be physically robust and independent with their life skills.

STEP:1 / NAVIGATORS

Navigators learn at greater subject depth; demonstrating the ability to contextualise learning. Pupils work towards academic and vocational qualifications. Pupils are preparing to access college at Post 16.

STEP:2 / OUTCOMES

Our 16 – 19 provision and pathways are designed to meet the individual needs of the pupils and support their preparation for adulthood.

CAREERS

Preparing our pupils for their next steps into further or higher education and the World of work.

COLLEGE

For pupils that continue to pursue subject specific courses from Level 1. (Academic or vocational)
